

Dear new quilting friends,

We're just setting up our web site catalogue (www.catgen.com/hereje) and about to put the fat quarters on it. It won't happen for a few more weeks though.

To purchase the fat quarters I sent you photos of, just send me the photo and we'll get them out to you ASAP. Did I mention that they're priced at \$7 each plus postage? The prices are higher than most, we know. In order to pay a fair wage (we're fair traders), help other girls off the streets and cover the costs of shipping from Africa this is the price at which we can cover costs. Plus 100% of the profits to directly to the project in Africa!

We offer the solid color FQs for less when they purchase both together. What we offer for each wax designed printed FQ they buy at \$7, they'll get a solid coordinated for \$5.

We're not yet set up for credit cards. Once the FQ's are on our catalogue they purchase on line using their credit cards through PayPal. If they want FQs before we get them set up on our catalogue, we can only take checks and they would send checks to us at: Fabric of Life Foundation P.O. Box 547 Edmonds WA 98020 along with their order.
